

METER MANAGEMENT

“The speed at which the data is accessed and delivered is truly revolutionary compared to what our previous systems could do.”
 - John Swalwell, CTO of Perry proTech

MWA FORZA, built on SAP Business One® platform, offers an ERP solution with meter reporting essential to gauge profitability for dealers in the imaging channel.

-  Provides universal interface
-  Unlimited meter code definitions and configurations
-  Suspicious alerts for meters in real-time
-  Smart meter collection is now automated from your favorite remote monitoring system
-  Meter collections are simplified with the meter collection wizard
-  Customer meter entry portal reduces time spent collecting meter reads

Managing automated meter readings from the field has never been easier! Using the universal interface in FORZA you can now use any meter collection tool or multiple meter collection tools to better serve your customers. Having constant updates from machines in field not only saves you time and money but also provides accurate information allowing FORZA to create the easiest, most readable invoice ever seen in our channel!

Gone are the costly days of sending a technician to a customer just to collect a missing meter or an admin department chasing customers for a meter. The meter management tool is fully integrated into the day-to-day process of administration and easily allows the tracking of successful meter collections, attempts of meter collections, and allows for a progressive, automated approach to get the meters into the system without dealer administration ever having to pick up the phone!

METER MANAGEMENT

The collection and management of meters within FORZA allows dealerships to effectively maintain and bill contracts in a timely and efficient manner with minimal human intervention. By allowing dealerships the freedom to use a universal and agnostic platform for meter collection, it provides crucial data without the interruption of switching platforms or disrupting normal day-to-day business processes.

Once meters have been collected, FORZA creates a readable and payable invoice out-of-the box that can be easily distributed to your end-users in a variety of different formats and templates.
